**Music Structure Analysis**

- General Goal:**  
 Divide an audio recording into temporal segments corresponding to musical parts and group these segments into musically meaningful categories.
- Examples:**
  - Stanzas of a folk song
  - Intro, verse, chorus, bridge, outro sections of a pop song
  - Exposition, development, recapitulation, coda of a sonata
  - Musical form ABACADA ... of a rondo
  - Solo parts in a jazz recording
